

## REMARKS

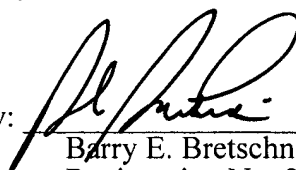

Applicant thanks the Examiner for withdrawing the prior rejections of record, allowing claims 15 and 18-20 and again indicating that claims 2-4 and 8-14 are directed to patentable subject matter. Applicant has amended claim 1 to incorporate the limitations of allowable claim 2, and has amended claim 3 to correct its dependency. Accordingly, all of the pending claims are now in condition for allowance. Applicant notes for the record that the term "predetermined" appearing in original claim 2, and now in claim 1, does not mean that the period of time is designed into the water feature but may be adjusted to the predetermined period at any time (even while the water feature is operating) before a given cycle of water feature operation.

For the foregoing reasons, early action allowing claims 1, 3-16 and 18-20 in this application is solicited.

In the event that the transmittal letter is separated from this document and the Patent and Trademark Office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952** referencing 532412000100.
